

SOFTGLOSS MAXX 3
THE ALL-NEW, 3-BRUSH SYSTEM WITH TOUCHLESS OPTION

ALL NEW!

SOFTGLOSS MAXX 3
3-BRUSH SYSTEM WITH
TOUCHLESS OPTION.

Ryko introduces an all-new, in-bay wash system that offers both touch and touchless options for your customers and higher profit potential for you. The all-new MAXX 3 three-brush, gantry-style workhorse is loaded with technologically advanced features and controls including high-pressure action, FoamBrite wash material, ingenious wheel scrub, LED lighting and customizable options. Designed for easy installation and maintenance, the MAXX 3 is a compact profit-maker that will have you cleaning up in no time.

1

MAXX CHOICE: TOUCH, TOUCHLESS OR BOTH

Having only a brush-wash or spray-wash unit limits your ability to reach more customers. MAXX Choice is the only system with more options for everyone including brush-only, high-pressure touchless or a combo wash in both off-board and contouring onboard dry configurations. Get this option and you have virtually two machines in one wash bay.

2

FOAMBRITE: TOUGH ON DIRT, EASY ON VEHICLES

Our industry-first FoamBrite wash material provides a safe, soft, gentle wash with water-resistant material that cleans and enhances the surface of every vehicle. Power-monitoring sensors adjust to varying vehicle shapes and apply a softer crush for optimum coverage.

3

MAXX BRUSH: ACTIVE AND DIRECT CLEANING ACTION

Active side-brush controllers are more reliable with fewer failure points than our competitors' dedicated brush controllers. The direct-drive top brush eliminates weight, maintenance and space demands of older antiquated counterbalance and torsion spring systems.

4

MAXX SCRUB: BETTER REACH FOR CLEANER WHEELS

Our active wheel scrub feature outshines the competition with low profile, full retraction that reduces damage from vehicle strikes. Plus, our extended-length feature reaches the narrow or offset vehicles our competition misses.

5

RECLAIM SYSTEMS REDUCE WATER COSTS

Over the last decade, we've saved hundreds of millions of gallons of water and significantly decreased water costs for our customers. Our specially designed UltraClear reclaim system can reduce chemical and water usage by up to 80 percent. Plus, MAXX 3 can use less water than touchless-only units, boosting your profit potential.

6

MAXX TRACK: DURABLE AND EASIER TO SERVICE

Our low-profile track is sturdy, round and can be easily rotated in place for longer use. And when it needs to be replaced, the rollover does not have to be removed, which eliminates downtime.

7

CUSTOMIZE TO THE MAXX

Enhance your customers' wash experience with our colorful LED lighting options. Add the ColorWave feature that applies a curtain of colorful wax, polish or surface sealant. Plus, add a personal touch with customized brand logos.

8

SPACIOUS BAY ALLOWS ROOM FOR LARGER VEHICLES

Our open-bay design is visually appealing and customer-friendly with an industry-leading, 90-inch clearance height for trucks and high-step vans. The 108-inch width offers plenty of room for dually pickups, and the flexible bay length allows ample room for long-bed pickups. Our treadle-free vehicle detection knows when a vehicle is in the right spot to start the wash so there are no annoying bumps when customers enter and exit.

9

MAXX DRY: HIGH-QUALITY PERFORMANCE WITH LESS ENERGY

Our onboard, contouring dryer diverts air for more uniform drying than inefficient, swing air dryers. And with optimized horsepower for more cubic feet per minute than other contouring dryers, it lowers your energy costs.

10

WASH-READY FRAME: STURDY AND EASIER TO INSTALL

Our exclusive aircraft-grade aluminum frame is durable and built to last. And, it's the only frame on the market that requires no assembly, no wall mounts and no hanging tracks. The pre-plumbed and pre-wired telescoping frame collapses for easy shipping and installation. It easily expands in place for no-hassle installation.

Standard Package

- Wash-Ready, Aircraft-Grade Aluminum, Painted, Telescoping Frame
- Wall- or Post-Mounted Energy Chain (field configurable for right or left side)
- Direct-Drive FoamBrite Top Brush
- Two FoamBrite Side Washers with Variable-Frequency Drives and Active Brush Control
- Taillight-to-Taillight Overlapping Front- and Rear-Wash Carriage
- Pressurized Off-Board Multi-Chemical Injection System
- Reclaim-Ready Wash Manifold
- Spot-Free-Ready Halo Rinse Manifold
- Wall-Mounted Touchscreen Programmer for Diagnostics and Monitoring
- Durable Painted Steel MAXX Track (Floor Mount) for Easy Serviceability
- High-Impact, Corrosion-Resistant MAXX Front, Rear and Top Brush Covers
- Integrated Superbright LED Stop-Go Driver Guidance Lighting
- RykoNet or Manual Activation
- RykoTrax Compatible

Options

- Full-Coverage Trifoam Detergent
- RainShield Protectant with Foaming Action Add-On
- ColorWave Finishing Curtain Applicator with LED Accent Lighting Package
- Active-Contouring, Four-Fan Onboard Dryer (20HP) with Flow Diverters
- Double-Extension, Full-Retracting Filament Wheel Scrub
- High-Pressure, Mechanically Driven, Rotating Wheel Wash
- Onboard Precision Tire Chemical Applicator
- MAXX Choice High-Pressure, Onboard Top-Contouring and Side-Turbo Nozzle Wash
- Two-Step Presoak for MAXX Choice Touchless Wash Packages
- High-Impact MAXX Side and Rear Fascia Covers
- Tunnel-Effect Front-Cover LED Neon Glow Programmable Lighting
- Interior Glow-Effect Accent LED Lighting

Accessories

- Integrated Door Management System
- Under-car and Rocker Sprayers with Optional Boost Pump
- Affinity Entrance and Spot-Free Rinse Arches
- Off-Board SlimLine, ThrustPro and MacNeil Tech 21 Dryer Options
- Rainmaker and EnviR/O Spot-Free Systems
- UltraClear High-Filtration Water Recovery Systems
- Driver Informational and Wash Package Signage
- Ryko EnterAct and PaySmart Activation and Payment Terminals
- Email Alert Messaging and Premium Reporting

With Ryko as your partner, you're getting more than a machine. We lead the industry in uptime with **the only coast-to-coast, direct support program with locally based technicians and a full line of wash solutions.** It all adds up to increased wash counts and higher profit margins.
