

CleanFill™

The Future of Inventory Management
Easier. Safer. More profitable.

CleanFill™

Concentrate Management System

The key to keeping car wash customers happy is making sure they get the wash they paid for, every time. That's why we developed the CleanFill concentrate management system. This patent-pending system includes a docking station engineered with our 2.5-gallon CleanFill concentrate containers in mind. The holding tanks are transparent, making it easy for you to monitor product level and keep inventory up to date. Our concentrate containers can be shipped and stored easily, so you can keep each bay up and running—and profitable.

KEY FEATURES

- Each unit requires less than 2 square feet of floor space
- Available in 14-gallon and 55-gallon units
- Docking station shelf fits 2.5-gallon concentrate container perfectly
- Easy to view product level
- No residual product waste
- Units can be plumbed together to increase capacity
- Reduced risk of injury or spills
- Can be installed in equipment room or in bay
- Optional covers to protect product from contamination

CLEANFILL CONCENTRATE CONTAINER

The CleanFill concentrate container is the perfect complement to the CleanFill concentrate management system. Each 2.5-gallon container weighs less than 25 pounds and is made of 100 percent recyclable plastic for easy disposal. Our concentrated product line allows for more applications per container at a lower per-application cost than many competitive products used in the market today.

KEY FEATURES

- Highly concentrated products
- Safer for users
- Easy disposal
- Low shipping costs
- Perfect complement to our easy-to-manage inventory system
- 100 percent recyclable packaging
- Unique product ID system

The CleanFill Concentrate Management system works with all leading wash systems and brands:

Mark VII is a trademark of AG. PDQ Car Wash is the trademark of Dover Corporation. Belanger is the trademark of Belanger Inc. N/S Corporation is the trademark of NS Wash Systems. SONNY'S is the trademark of SONNY'S Enterprises Inc.

All CleanFill concentrate products are shipped in easy-to-handle corrugated containers for quick recycling/disposal.
