INVENTORY AND LOGISTICS
Our Rapid Response distribution model consists of our central distribution warehouse, along with CleanTouch distributor partners, and strategically located warehouses across the United States which means you’re never out of chemicals.

GREEN INITIATIVE
We pride ourselves in offering environmentally-safe and sustainable cleaning solutions for all self-serve, in bay and conveyor operations in the professional car wash marketplace.

SITE MARKETING
Our CleanTouch site marketing programs are specially designed for maximum effectiveness, ease-of-use and customization. We offer a full line of site-specific marketing signs and collateral, plus an online portal.

NCSTRAX CHEMICAL MONITORING
Our chemical monitoring system provides realtime data reporting and alerts for your chemical dispensing systems. NCSTRAX dashboards and reporting capabilities give you greater control over your car wash operations and peace of mind.
We guarantee your 100% satisfaction with every CleanTouch chemical product purchased. Your confidence in the CleanTouch product line of chemicals is extremely important to us before, during and after the sale. If your purchase does not meet your high standards, we offer a 90-day money back guarantee. If you are not completely satisfied, you may return unused product for a full net refund within 90 days.

CleanTouch Guarantee Terms and Conditions

Products supplied by CleanTouch, Manufactured by National Car Wash Solutions are guaranteed against product or manufacturing faults for the duration of the 90 day guarantee period subject to the following terms and conditions:

- The product must be purchased and installed within the 48 Continuous United States.
- The product must be correctly installed by an employee of National Carwash Solutions or an authorized sole agent.
- The guarantee will only apply to the original purchase.
- Proof of installation will be required to validate a guarantee.
- The guarantee is void if the product is applied to any surface other than its intended use. The guarantee is void if the product is not used within the 90 day period of purchase. The product must be returned to the manufacturer for inspection. National Carwash Solutions will not accept returns of used products. The guarantee is void if the product is not used within the 90 day period of purchase. The product must be returned to the manufacturer for inspection. National Carwash Solutions will not accept returns of used products.

- The guarantee is void if the product is not used within the 90 day period of purchase. The product must be returned to the manufacturer for inspection. National Carwash Solutions will not accept returns of used products.
CleanCut 360

CleanCut 360 is the most technologically advanced non-corrosive, alkaline presoak on the market today. It can be used as either a stand-alone cleaning solution or in conjunction with our low pH Prep Pro 1 presoak as a true 1-2 cleaning combination.

Features:
- Highly effective on all types of road film, including the windshield "eyebrow"
- Effective cleaning in both hot and cold water
- Works well as both a 1-step wheel cleaner and bug remover
- Hard water compatible

Supreme Clean

Supreme Clean is a non-corrosive, alkaline presoak designed to remove heavy soils composed of grease, oils and dirt in both friction and touch free cleaning environments. It can be used as either a stand-alone cleaning solution or in conjunction with our low pH Prep Pro 1 presoak as a true 1-2 cleaning combination. Supreme Clean is not effective in hard water environments.

Features:
- Removes all types of road films including road salt and brake dust
- Works well as both a 1-step wheel cleaner and bug remover
- Effective cleaning in both hot and cold water

Red Lightning

This economical and effective alkaline based presoak offers a non-corrosive cleaning formula to safely and effectively remove most organic soils and particulates from the vehicle surface. It is mild in nature and inherently safer than most, more aggressively formulated alkaline presoaks.

Features:
- Economical price point
- Works well in pre-wash prep guns and low pressure presoak arches

Prep Pro 1

Prep Pro 1 is a highly effective, non-corrosive low pH presoak for use in both friction and touch free cleaning environments. Prep Pro 1 is recommended for use as the 1st step application in a 2 step cleaning process and is compatible with all CleanTouch alkaline presoaks. It is designed to safely and effectively remove all inorganic particulates from the vehicle surface including glass and chrome.

Features:
- Special surfactant blend to aid in removal of oily road films
- Works well as a low pH CTA application – wheel brightener
- Effective in both hot and cold water
**NEUTRAL FOAMING DETERGENTS**

**ACTIONSHINE Detergent**  
Highly concentrated neutral based lubrication detergent for use in all types of car wash equipment. Its highly concentrated formula provides the lowest cost per application of any of our neutral foaming detergents and it is hard water compatible.  
**Features:**  
- High foaming  
- Hard-water resistant  
- Ultra concentrated - effective dilution ratios beyond 800:1

**White Foam Detergent**  
Very cost efficient neutral based detergent that provides superior lubricity in both friction and self-serve car wash applications. Adds in the removal of all particulates on the vehicle surface while greatly reducing or removing the squeak and cling of un lubricated wash material in a friction tunnel environment.  
**Features:**  
- High foaming  
- Hard-water resistant  
- Superior lubrication

**Tri-Foam Color Detergents**  
Our highly concentrated colored detergents utilize some of the most high color intensity, non-staining dyes in the market today. These products provide superior lubrication while providing a highly vivid and colored foam show for maximum customer appeal.  
**Features:**  
- High foaming  
- Vivid red, blue, or yellow foam show  
- Hard-water resistant  
- Bubble gum scented

**Fleet Foam**  
A very cost efficient neutral pH detergent that provides superior lubricity in friction and self-serve applications. Due to its lower foaming properties, Fleet Foam works well in reclaim environments if foam build-up is an issue. Designed to provide maximum lubricity for all styles of wash material, including closed cell foam and poly-filament material.  
**Features:**  
- Reclaim friendly-lower foam build-up  
- Hard-water resistant  
- Excellent lubrication

**Fleet Duo**  
Fleet Duo is a carnauba infused Wash & Wax product that provides superior lubrication and shine. This easy-to-rinse formula promotes sheeting of water on the vehicle surface to help minimize residual spotting on the vehicle surface. Fleet Duo will not cause excessive foam build-up in reclaim systems.  
**Where to use:**  
Fleet Duo is a stand-alone product, and is injected into the wash water of drive-thru car washes that do not use drying agents/rinse aid applications. A final rinse using fresh or spot free water is recommended.
Low pH White Foam Detergent
This high-foaming, bubble-gum scented low pH detergent provides superior lubricity in all foaming applications. It also works well as a non-foaming lubrication additive to all brush and mitt cloth rinse nozzles. It is recommended for use in all friction and self-serve wash applications.

Features:
• Hard water compatible
• Aids in keeping wash material clean
• Assists in neutralizing residual alkalinity

Colored Low pH Detergents
Super Suds low pH detergents are highly concentrated, vivid color intensity non-staining dye formulations utilized to provide superior lubricity in friction wash environments. These products are also highly effective when used in self-serve foam brush applications.

Features:
• High foaming
• Vivid red, blue, or yellow foam show
• Hard water compatible
• Bubble gum scented
FOAMING WAXES

Red, Blue & Yellow Wax
CleanTouch foaming wax conditioners are designed as high foaming products, yet dissipate instantly when rinsed with water to ensure no residual product remains after the wash is complete. This product offering can be utilized in all self-serve, in-bay and conveyor applications. Their superior formulation utilizes a high color intensity non-staining dye and a unique free-rinsing technology.

Features:
• Highly concentrated
• Promotes beading of excess water on vehicle surface
• Aids in rinsing and drying of vehicle surface
• Cherry scented
• Free rinsing foam technology

Orange Shine
Orange Shine is a super foaming wax concentrate for use in all types of extra service foaming wax arches. It provides a vivid orange foam and brings a true shine-enhancing quality to the surface of the vehicle after application. It is recommended for use in both the CleanTouch foaming wax arch and all competitive product foaming wax arches. Red or yellow directional lighting provides the best product illumination.

Features:
• High foaming
• Non-staining orange dye
• Cherry scented
• Specialty application arch package available

Bring value to your customer and deliver increased profits to your bottom line. This is the common goal all professional car wash owners share. Our new super foaming wax product offering coupled with our unique foaming wax arch is the solution to your goal.
Rinsing & Drying

 Razberry Clear Coat
 Razberry Clear Coat is an ultra-concentrated polymer infused formulation designed to provide a long lasting shine and protective layer on all vehicle surfaces days after application. Its effective dilution ratio capability extends well beyond 1200:1 dependent upon application process.
 Features:
 - Ultra-concentrated
 - Enhanced vehicle shine – promotes water beading
 - Protective layer for all clear coat surfaces
 - Raspberry scented

 Clear Coat Protectant
 Our clear coat protectant is a polymer fortified formula that provides a long lasting protective coating on all applied surfaces to protect the vehicle from the environment.
 Features:
 - Longer lasting protection compared to traditional waxes or drying agents
 - Enhances beading, high drying quality and bright shine
 - Raspberry scented

 Waxluster
 Waxluster is our most popular drying agent in our product line today. It economically allows for the drier of dry cars when used in conjunction with high powered air dryers or hand towel wipe downs.
 Features:
 - Economical drying agent
 - Promotes water beading
 - Reduces windshield wiper smudging

 Citrus Shine
 This is a scented version of Wax Luster that contains a very pleasant citrus fragrance.

 Rinse Off
 Rinse Off is designed for use as a drying agent in wash environments that require sheeting or plating water dispersal methods. For use in all wash environments that do not offer a high powered air dryer function.
 Features:
 - Sheet or plating water dispersal
 - Will not leave residual spotting or smudging
 - Economically priced
Our line of surface sealants and super protectants are at the forefront of technologically advanced formulations designed to provide superior results to your customer. All products are designed for use in self-serve, in-bay and conveyor applications.

RainShield is a consistent best-performing surface sealant product in the marketplace. It offers a long-lasting protective layer from all types of environmental elements including UV rays and acid rain. Per use application cost is well below most competitive products.

Features:
- Will not streak or smear on all vehicle surfaces including glass
- Can be applied as either foaming or non-foaming
- Creates a glossy, non-stick surface

Final-Shine is our newest product addition in our Seal & Protect product line. It is specifically designed to provide a superior scent and foam show when applied through foaming applications. Its ultra-concentrated formulation allows for a lower per application cost than comparable products without affecting performance.

Features:
- Vivid yellow foam show – tropical fruit scented
- Free rinsing
- Provides a protective layer on all vehicle surfaces
- For use in all competitive added services surface sealant arches
Ultrashine Max is a silicone fortified emulsion designed for use in all popular on-line tire dressing applicators in the market today. It provides a deep, wet tire look shine application to all tires. Its special formulation greatly reduces the amount of residual product left on the tire after application – little to no “sling” effect after application. It is not recommended for use on any other surface other than tire rubber.

Features:
- Solvent based emulsion
- Provides a deep shine to tires and exterior plastic trim panels
- Does not attract dirt to rubber surfaces post application

Citrus Clean High-Pressure Detergent is specifically formulated for use through high-pressure wands found on self-serve equipment and tunnel arches. The detergent is highly concentrated, for lower-costs per wash. It is an effective wetting, cleaning and high foaming product when used at a high dilution ratio.

Features:
- Safe for all vehicles
- Will not strip wax off vehicle surfaces
- Lemon scented

Extreme Clean is a non-corrosive 4-in-1 alkaline cleaner. It is a very effective bug remover, and a wheel, tire and engine cleaner.

Features:
- Hard water compatible
- Safe to use on all vehicle surfaces
- Effective cleaning with hot or cold water

SPECIALTY PRODUCTS
Reclaim Additive
is a safe and effective odor control agent and should be used at reclaim sites that experience occasional or constant reclaim odor. One gallon per day added directly to the reclaim pits will eliminate reclaim odor.

Wall Cleaner
CleanTouch Wall Cleaner is highly concentrated, non-corrosive, acid-based cleaner that is as effective as hydrochloric or hydrofluoric-based wall cleaners, but much safer to use. Its formula minimizes corrosive effects on aluminum and stainless steel.
  Features:
  - Safer than Hydrofluoric-based wall cleaners
  - Minimizes discolorization on metal surfaces
  - Safe for wash equipment
  - Will not etch glass

Rust Inhibitor
When used with wash equipment that has an under-car application, Rust Inhibitor helps protect the underbody of vehicles against the formation of rust due to exposure from the elements such as road salt and moisture. Regular use of Rust Inhibitor will help minimize the effects of corrosion on the car’s underbody.
  Features:
  - Underbody rust formation protection
  - Reduces exposure to road salt and moisture
Specially formulated detergent provides copious amounts of rich, while cleaning foam. White Foam also has enhanced wetting agents and lubricating properties to facilitate better cleaning properties. Available in low and neutral pH.

Industry leading surface sealant for gloss and water repellency — protects cars from rain, sleet, snow and UV rays.

Heavy-duty alkaline multi-purpose cleaner is designed to break down the toughest road film, dirt and grime to produce outstanding clean vehicles. It’s also effective at removing brake dust and organic soils producing sparkling wheel rims and components.

The key to keeping car wash customers happy is making sure they get the wash they paid for, every time. That’s why we developed the CleanFill concentrate management system.

The CleanFill Concentrate Management system works with all leading wash systems and brands:

- 100 percent recyclable packaging
- Easy disposal
- Unique product ID system
- Docking station shelf fits 2.5-gallon concentrate container
- Optional covers to protect product from contamination
- Highly concentrated products
- Safer for users
- Easy disposal
- Low shipping costs
- Perfect complement to our easy-to-manage inventory system
- 100 percent recyclable packaging
- Unique product ID system
- 2.5 gallon container
