

Increase revenue with superior wash quality

Ryko, a touch-free industry innovator for nearly 30 years, designed the Radius to be easy to use and just as easy to maintain. What makes the Radius different from the competitors' machines? The Radius uses powerful advanced concepts and spray-pattern designs created to exceed wash-quality expectations, while delivering the superior quality and dependability you expect from Ryko.

3710

FEATURES AND BENEFITS

- The following features come standard on the Radius:
- Ryko's exclusive Halo Rinse highspeed, water-saving rinse technology delivers a faster, more efficient rinse than other touch-free washes.
- IMAXX or high-pressure cleaning technology uses powerful, advanced water flow concepts and superior spray patterns for a fast and thorough clean.
- An open, clutter-free bay is appealing to customers and accommodates even extra large vehicles.

- Ultrasonic vehicle positioning allows smart wash arm to position itself the optimum distance from any size vehicle for the best wash possible.
- Variable speeds and programmable wash times allow for maximum throughput.
- Smart spray arm is designed to save time and water, which equals money.

- Stainless steel frame ensures the equipment will endure the most rigorous car wash environment.
- Polyethylene, stainless steelreinforced tape drive provides precise machine-to-vehicle position and eliminates the slipping that is common in other wash systems.
- Programmable Logic Controller (PLC) provides important customizable benefits, like real-time self-diagnostics.

VALUE-ADDING OPTIONS

Push your profits higher with any of these add-ons:

- Two choices of oscillating rocker wheel blasters and an under-chassis sprayer provide extra cleaning power where vehicles need it most.
- ColorWave finishing curtain delivers a customer-wowing light show that will set your wash apart from the competition. (Available in red, yellow or blue.)
- **Onboard dryers** allow your customers to relax while the machine uniformly dries their vehicles.
- RainShield protectant protects vehicle bodies and glass surfaces from corrosives, oxidation and UV rays while improving visibility, enhancing color and shine, and providing a water-repellant coating.
- TriFoam wax is an easy-to-rinse tri-color foam that provides a protective shine.
- Water reclamation system minimizes the amount of fresh, city water usage while still providing a spot-free rinse.

SPECIFICATIONS

Ryko 360 is a complete car wash program that offers everything you need to keep your car wash business running smooth and boost your profits. Our national service coverage can't be beat. From hands-on training to quality products, parts and marketing, Ryko is truly the only source you need.
